

Christian Geovanni Carcamo Mojica

Studies:

- 3rd-year Computer Systems Engineering student at Universidad Catolica de El Salvador (currently studying).
- Certified by ALURA as a Junior Developer Programmer.
- Technical Baccalaureate in Technological Infrastructure and Computer Services

Work Experience:

- **Freelancer: System's Barber Shop (2024 December – Actually)**
I worked on a **C# and WPF** project built with a hexagonal architecture, using Entity Framework as the ORM and applying SOLID principles. It is designed for small barbershops in my town, with the goal of offering an affordable solution. The project includes an interface where customers can select their preferences, such as services or products. Barbershops can track sales, manage inventory, and receive a weekly sales report via email.
- **Freelancer: Veterinary System (2024 March – November)**
I worked on a using **Java Spring**. I built the entire project from scratch, applying the MVC pattern with a hexagonal architecture to ensure scalability. Additionally and I implemented JWT for secure authentication.
- **Computer Hardware and Software Maintenance Technician in "Space Tech" (2020 December-2022 February).**
Preventive maintenance of computers.
Installation of Systems Operating.
repair and assembly of electronic equipment.

Technical Skills:

- | | |
|------------------------------------|------------------------------|
| • SOLID. | • Windows and Linux servers. |
| • Clean & Hexagonal Architectures. | • Bootstrap |
| • MVC. | • Spring |
| • Docker | • Spring boot |
| • MySQL, SQL Server | • .NET y .NET Core |
| • C# and Java. | • WPF. |

Soft Skills:

- | | |
|---------------------|--------------------------|
| • Learning capacity | • Adaptability |
| • Decision-making | • Active listening |
| • Time management | • Problem <u>Solving</u> |
| • Collaboration | |
